**“Our mission is providing recreational opportunities for physically challenged people.”**

Adaptive Sportsmen Inc. is a Non-Stock, Not for Profit 501(c)(3) Foundation organized in Wisconsin

## Volunteer Spotlight – Pat Buhr

Pat is a board member and the primary coordinator for the Horicon 3-D shoots. Without his help and the cooperation of the Horicon Marsh Bowmen we would not have such a great time at our archery events. He has been one of our guides from the beginning, and has been a great help to our hunters as well as a wonderful person. We would not have such a fine organization without people like Pat.

## ATV Ride in Mercer, WI

2012 ATV ride in Mercer WI, was a small group but man did we have fun and the trails have never been smoother. There were 5 disabled riders and several others that joined us. A big thanks to **Greg and Donna Olson** for connecting with Polaris to get 2 loaner RZR's ( Razor side by sides ) one was even a 900 CC 4 seater with all the tricks. They were the hit of the trip, I think we all took turns riding in one or both of them and making a run down the Rally route as fast as we could. A 40 mile rip in the 900 took just under an hour and was fun because you could talk to each other as you were ripping down the trail. It was as close as you can get to sharing the lead with the rest of the group all at the same time. The first day we got a nice lazy start after breakfast and put on 50 miles right from Pine forest lodge and back. Had a great dinner and bon fire that eve, lots of great stories were told of years past. Day 2 we loaded the machines for yet again another lazy start and trailered up to Saxon and packed a trail lunch and road down to the Harbor and had lunch on the shore of lake Superior, everyone really enjoyed this vs. a Parking Lot or Tavern. After taking in the lake and lunch we made our way to the sand pit for some fun and then headed up the trail a ways and then realized we spent an awful lot of time at the lake and had to turn around to get some folks to a planning meeting for an even better trail network next year. When we arrived back at Pine Forest the RZR's came off the trailer and we made a few rally rides up Kramer Lake road and around to the rail road grade and adventurous speeds, MAN O MAN DO I WANT ONE OF THEM!! Thanks **John and Cheri Straite** from Pine Forest Lodge for everything you do and for sharing your amazing place with us. One more big thanks to Greg and Donna Olson for pulling strings with **Polaris Inc** for the sweet rides.

**Pete LePage**

## Archery Shoot for Disabled Veterans

On the second Monday of each month, the ASI is holding an Archery Shoot for Disabled Vets, along with friends and helpers, from 2-4 PM at West Town Archery, 4135 N 126<sup>th</sup> St, Brookfield. The regular range for compound and recurve bows are open along with Video target archery and the 30-yard lane for crossbows. We have 2 crossbows on loan from Adaptive Sportsmen as well as shooting sticks. You're invited to bring your own equipment and we will also have recurve bows available. Snacks and beverages will also be provided.

### Horicon 3D Outdoor Archery Shoot

June 23rd was the date for the annual 3D at Horicon Marsh Bowmen. The weather was as good as could be expected. There were 10 Adaptive Sportsmen members along with 7 friends and helpers. Shooting has improved greatly since last year. That was also the case with the Winter shoot. No excuses this year!! **John Mitchell** led the way with a score of 264/336. **Dustin Paulanfus** was right behind with 251. **Steve Prieve** and his new bow shot 238. Newcomers **Monica Kamal** and **Bob Hudson** had a good time on the course. Thanks as always to all the HMB members that helped out. Great food again also. Thanks to everyone that came out and looking forward to seeing you at the club next year. **Pat Buhr**

Pat, thanks to the practice Horicon Marsh Bowmen gave to us Callen Popp and I were able to shoot bears on opening day. John Mitchell

### Tyler Zelko and his Turkey

On the first day, my Uncle and I set up in a blind, on the edge of the woods, where turkeys had been spotted days before. We were fortunate to see a few birds in the morning and even had 3 jakes at 35 yards, but too far to risk wounding one, so we just enjoyed the view.

At noon, we decided to move the blind to a tree line that separated two fields, as we had seen a tom walk along it earlier in the day. That afternoon, a tom responded to our call and proceeded to come our way. When the bird was passing by at 20 yards, my Uncle used a high-pitch yelp on the call and the tom fanned out in full display to strut. Unfortunately, I was unable to locate the bearded beauty in the scope and he moved on. Oh what a sight and sound to behold!

The next morning, we were full of optimism when we heard a roosted gobbler gobbling about 150 yards away. Once it started getting light and we knew he was about to fly down, we used a few soft yelps, and boy did he respond with love on his mind. Within a few minutes, the bird was gobbling up a storm approximately 30 yards directly behind us!

The trick was how we would get the bird in front of us since we were on a fence line separating two fields, and the bird was in the wrong field for us. We were not using a decoy either. When we made a few soft calls, the tom would work himself into a lather gobbling to no end, it seemed. We decided to stop calling, hoping to force him to cross the fence line looking for the hen. We thought WRONG, after not hearing him for ten minutes. We proceeded to make a soft call and he responded; only he was now about 100 yards behind us! We decided to make some aggressive hard yelps on the call, quickly. He started gobbling fast and furious and was quickly running our way. Within 30 seconds, he appeared to our right stepping through the fence line. He walked up directly in front of us, at 20 yards. This time when my Uncle called, and the tom went into full strut, there would be no hesitation. I pulled the trigger and the arrow hit the mark dead center and my first turkey ever was in hand. We both celebrated like we had just bagged a 30-point buck.

I just want to say thank you again for providing the cross bow, which enabled me to make this incredible hunt happen

**Editor's note;** Adaptive Sportsmen loaned Tyler the crossbow he used to shoot the turkey. We have crossbows and other equipment available for our members to use.

### DEERFEST July 20-22, Oshkosh

Well our first Booth at Deerfest was a success on the weekend of July 20-22nd in Oshkosh. **Cal Popp** was Booth captain for the event, **Scott and Christy Richardson** came up Friday to set the booth up and stayed with Cal all weekend. Saturday **Jerry Schick** and **John Mitchell** came up to work with us, and Sunday **Steve Starz** came to help. We were able to sell over 1200.00 worth of raffle tickets, hand out several Adaptive Sportsmen brochures to people with disabilities, or to people who knew someone disabled who may want to join our organization. We had people request information to open their land to members with disabilities, even made contacts and picked up a few silent auction items. It was a great weekend so make it on your calendar next year and volunteer some time to come up, enjoy the show and help us man the booth.

### Madison Fishery

On Saturday June 9th, 2012, Adaptive Sportsmen Fishery was blessed to have a great bunch of volunteers, **Bruce Gehrke, Steve Martinson, Jeff Vogel, David Pike, Karen the Cake Lady, Tony Plevak, Laurin Plevak, Phil Duffy, Walleyes Unlimited USA members, Carl Kaufmann, Ken Dobson, Mike Orawiec, Steve Everetts, Dave King, Kirk Von Lancken, Jim Ladwig and Duane Kreger** along with our financing volunteers, **Madison Fishing Expo, Alex Kammer, American Packaging Wilderness Fish And Game, and Pan-O-Gold Bread.**

We really appreciate all of the support and we had a fun time!

We had a Delicious picnic at noon then loaded up on pontoon boats and fishing boats to fish Lake Mendota for a wide variety of game fish. Most of our members caught fish or a good sun tan anyway just the opportunity to get out fishing means a lot to us who otherwise would not be able to get out on our own." John Martinson

### Shooting Picnic

Adaptive Sportsmen enjoyed a shooting picnic at the **Howard Schultz Shooting Center** in Muskego. It was a beautiful day with 3D archery targets and a block for broad heads in the woods. Many paper targets were used on the rifle and pistol range. The trap range was also busy with shooters. Ammunition for .22, .223, 20 & 12 gage was furnished. Lunch was great and again we need to thank our grill master **Garth Dirksen**. Shade canopies and the air conditioned clubhouse were both used for lunch. There were bucket raffles and prizes. **Monica Kamal** and **Bill Ploor** won the two major door prizes. We would like to thank Schultz's Rod and Gun Club and all of the volunteers.
